*Keywords: Non-timber forest products, sustainability, Western Ghats, yield patterns, biodiversity, ecosystem services, resource management*

---

3.

#### **Transient Stability Assessment of Multi-Machine Power System Using Cusp Catastrophe Theory**

Maithem Hassen Kareem

*Keywords: Catastrophe Theory, Transient Stability, Power Systems, Dynamic Security, Optimal Power Flow*

---

4.

#### **An easy-to-use, rapid and inexpensive method to determine methicillin resistance in *Staphylococcus aureus***

Jülide Sedef Göçmen, Osman Çağlayan, Alpay Azap

*Keywords: turbidimetric method, methicillin resistance, Staphylococcus aureus, MRSA, MSSA*

---

**5.**

### **Generalized Topologies Related To Notions Of N-Closed Sets And N-Continuous Functions**

Dhana Balan, Santhi

*Keywords: generalized topology, N-continuous functions, coN-closed sets, topological spaces,  $\mu$ -open,  $\mu$ -continuous, mathematical properties*

---

**6.**

### **On the Possible Physical Origin of Metabolism as a Necessary Interaction with the Environment of Biological Structures by Energy Uptake**

András Balázs

*Keywords: origin of life, time inversion symmetry, spontaneous symmetry breaking, metabolism, energy uptake*
